## MARKET OPENS STRONG, LOSES

Colorado Fuel and Iron Is Feature Stock Tuesday, Going to 34.

Opening firm Tuesday, the stock market showed a few early gains, but later in the morning, with a few exceptions, it was dull, according to advices to Curtis Manning &amp; Co., stocks and bonds, First National Bank Building.

Colorado Fuel &amp; Iron was the feature Tuesday, going as high as 34 during the first part of the morning. Copper stocks made no unusual showing.

New York advices say the American Smelting &amp; Refining Co. has sold copper in the early fall at \$24 per pound. This is the highest price that has yet been paid for this grade of copper.

One of the explanations for the advance in copper is that it is being used in the manufacture of castings and other war materials for the use of the warring nations of Europe. It is not all unlikely according to some advices, that the government will investigate the causes of these high prices. The demand still continues and several companies have sold their entire output for several months in advance.

Copper Stocks Quotations.

The following wire quotations furnished Curtis Manning &amp; Co., give the closing prices.
